ONTARIO GAMES SPORT TECHNICAL PACKAGE

Technical packages are a critical part of the Ontario Games. They guide the selection of athletes by prescribing the age and eligibility requirements, assist the organizing committees by detailing tournament formats and scoring procedures, help with all aspects of Games planning including transportation budget, meals, accommodations, etc. by describing the number of participants permitted.

Every participating PSO Games coach and/or manager has an obligation to read and understand every aspect of the Technical Package. Failure to do so could cost an athlete his or her eligibility for the Games or could affect final standings or the conduct of the competition. If someone does not understand an aspect of a Technical Package, he or she is to seek clarification from the Provincial Sport Organization or the Sport Alliance of Ontario.

If an individual wishes to initiate change to a Sport Technical Package, the request should be directed to the Provincial Sport Association. Sport Technical Packages are reviewed and negotiated with the Sport Alliance of Ontario and the hosting Games Organizing Committee approximately 12 - 14 months from the games. Change will not be accepted after the Technical Package has been approved for the games without consent of all three parties.

5.0 GAMES SCHEDULE

Attached is a draft copy of a tentative schedule for the Girls competition. The Boys competition schedule will be similar if not the exact same. The attached schedule is based on the 2008 schedule. If it is at all possible, it would be great if we could stretch the schedule into a fourth day so that athletes don't have to play 3 games in a day. The games consist of 4x15minute quarters with a 15 minute warm-up & halftime.

6.0 QUALIFYING PROCESS

Ontario is split into 12 regions. Each region holds 3 training sessions/tryout sessions. They selected 15 athletes including 3 alternates who train together for 30 hours prior to competition. (only the final 12 will attend OSG).

7.0 RESULTS / MEDALS

7.1 Results

If you can provide us with detailed digital results at end of play this information will be posted within hours onto the web site. We will need your help to do this.

How are your results generated and will you be set up to provide digital results at end of play? How long will it take to have these results ready? Please add other relevant points or comments.

This depends on how you want them submitted. If there is wireless internet access I can have all the results phoned into the PSO representative and immediately emailed to the individual. However you would like the scores reported, we can do it almost immediately after the game finishes.

The results would be posted in a spreadsheet. See Below in appendix C. This is just an example and may contain more or less fields.

7.2 Medals

Please indicate your medal requirements. This information will be used to purchase the required number of medals for the games.
